

## **BAB V**

### **CONCLUSIONS AND SUGGESTIONS**

#### **5.1 Conclusions**

Based on the result in chapter IV, the researcher concluded as follows:

1. Generally, perception of using YouTube as online learning media in SMAN 13 Padang had moderate perception. It can be seen from the result of the finding that there were 46 students (66.7%) that had moderate perception of using YouTube as online learning media.
2. The perception of learning process using YouTube as Media in SMAN 13 Padang had moderate perception. It can be seen from the result of the finding that there were 46 students (66.7%) that had moderate perception of using YouTube as online learning media on learning process.
3. The perception of learning material using YouTube as media in SMAN 13 Padang had moderate perception. It can be seen from the result of the finding that there were 47 students (68.1%) that had moderate perception of using YouTube as online learning media on learning material.

#### **5.2 Suggestions**

Based on the conclusions, the researcher gives some suggestions for the teacher, students and future researcher as follows:

1. The teacher should utilize YouTube as media for online learning in order to help students' millennial in developing students' English skills by using YouTube as the latest technology in learning English.
2. The next researcher has to look more and investigate into YouTube effects

on particular English skills and how to overcome difficulties that can come up when utilizing YouTube to teach listening in casual settings.

3. Students can be encouraged to have online learning. Students can use YouTube as a medium to help them learn English online as a medium and students who use YouTube should be more thoughtful about using YouTube for studying .
