Reviewer B:

Abstract

1. several contradict the statement
2. Not clear objective
3. Result should state in a quantitative form not qualitative.

Last paragraph of Introduction

so simple for simulation work, should more than 10

Method

Paragraph after figure: confusing statement

Result and discussion

Need in deep and comprehensive discussion for each of the results.

Reviewer D:

The article is quite good and deserves to be published. There are only a few minor changes that need to be made.
