CHAPTER V

CONCLUSIONS AND SUGGESTIONS

In this chapter, the researcher presents conclusions and suggestions. Those are made based on the results of this research.

1. Conclusions

Based on the results in Chapter IV, the researcher makes some conclusions as follows:

1. The tenth grade students' ability at MAN Kota Solok had a high ability in writing a descriptive text using a picture on Instagram

2. The tenth grade students (90,48%) had a low ability to develop the content in writing a descriptive text using a picture on Instagram

3. The tenth grade students (61,90%) had a low ability to organize in writing a descriptive text using a picture on Instagram

4. The tenth grade students (93,65%) had a high ability to use vocabulary in writing a descriptive text using a picture on Instagram

5. The tenth grade students (68,26) had a high ability to use grammar in writing a descriptive text using a picture on Instagram

6. The tenth grade students (80,95%) had a high ability to use mechanics in writing a descriptive text using a picture on Instagram

2. Suggestions

Based on the conclusions, the researcher gives some suggestions to the teacher, the students, and future researchers as follows:

1. The teachers can use Instagram as a medium in an innovative teaching and learning process especially when explaining about writing descriptive text.

2. The students should be able to improve their ability in writing descriptive text by practicing more and paying attention when the teacher explains the material about a descriptive text.

3. Future researchers are advised to study research on descriptive text using more innovative media and research on the problems students experience in developing content and organizing text because students of MIPA 1 and MIPA 2 at MAN Kota Solok had low ability in these two activities.
