Dear Azrita,

I'm pleased to let you know that your article: "Effect of feed enriched by products formulated from coconut water, palm sap sugar, and mushroom on the chemical composition of feed and carcass, growth performance, body indices, and gut micromorphology of giant gourami, *Osphronemus goramy* (Lacepède, 1801), juveniles" has just been [published on F1000Research](#).

### The Peer Review Process

We are now inviting the reviewers you have suggested. As part of their reports, reviewers are asked to provide a recommendation of 'Approved', 'Approved with Reservations' or 'Not Approved', and their report will be published alongside the article with their full name and affiliation. You will be able to respond to any published reports with a comment and/or by publishing revisions as a new version of your article – we will send you instructions on how to proceed when you begin to receive reports.

It is important that authors do not contact the reviewers directly, as this could result in invalidating their report.

**Please note** that we will ask you for additional reviewer suggestions if the invited reviewers decline. In order to avoid any delays with the peer review of your article, please continue to check your [Suggest Reviewers](#) page for updates and respond to any email requests as soon as you can.

### Linking Your Data

Now that your article has been published and assigned a DOI ([10.12688/f1000research.124706.1](https://doi.org/10.12688/f1000research.124706.1)) we would strongly recommend that you include this DOI in the metadata of any published dataset associated with this article. If you would like assistance with this, please [contact our editorial team](#).

### Increasing Discoverability

Now that your article has been published, why not take advantage of the tools we provide to help maximize your article's reach and share your article using the Email and Share options on the article page.

Your article will be listed in ePMC shortly as a preprint, and then updated once it has passed peer review.

Kind regards

The F1000Research Team

**Press releasing articles:** Please avoid promoting articles in the media until the article has passed the [open peer review process](#). Promotion on social media is encouraged once the article has been published; please ensure the full citation is included, as this contains the peer review status. F1000Research should be cited as the source of these articles with a link to the article.

Dear Azrita

Effect of feed enriched by products formulated from coconut water, palm sap sugar, and mushroom on the chemical composition of feed and carcass, growth performance, body indices, and gut micromorphology of giant gourami, *Osphronemus goramy* (Lacepède, 1801), juveniles  
Undefined A, Syandri H, Aryani N and Mardiah A

We have just published a peer review report for your article on F1000Research, which you can read [here](#).

If you wish to respond to the reviewer, please go to the link above and click 'Respond to this report' below the report. When responding to a peer review report, please try and make sure you are logged into the account that you originally used for the submission of this article, otherwise we cannot identify your response as being from an author. Please allow up to one working day for your comments to appear. If you 'Track' the article, you will automatically be alerted to any other reports or comments made.

Reviewers award articles one of the following approval statuses as part of their reports:

**Approved:** No or only minor changes are required.

**Approved with Reservations:** The reviewer has asked for a number of small changes to the article, or specific, sometimes more significant revisions.

**Not Approved:** Crucial substantial revisions will be required for the paper to pass peer review. It is important to note that a Not Approved status is not a rejection.

NB: Your article will pass peer review and be indexed in PubMed, PMC, Scopus, Embase and other indexing sites, if you receive either two 'Approved' statuses, or two 'Approved with Reservations' statuses and one 'Approved' status from the reviewers.

In order to ensure that peer review proceeds quickly and you get at least one more report, we recommend that you suggest additional reviewers. Please visit [Suggest Reviewers](#), where you will find a useful tool to help you find reviewers; you can also access this page via the article's record under My Research >> Submissions. See also our [reviewer criteria and tips for finding reviewers](#).

We would recommend waiting for additional peer review reports before starting on any article revisions.

Best regards,

Kate  
The Editorial Team, F1000Research

Dear  
Kate  
The Editorial Team, F1000Research

We've made a response to Reviewer's Report from Fatimah Hashim and Nor Omaina Harun to the article " Effect of feed enriched by products formulated from coconut water, palm sap sugar, and mushroom on the chemical composition of feed and carcass, growth performance, body indices, and gut micromorphology of giant gourami, *Osphronemus goramy* (Lacepède, 1801) juveniles. (Article No. 124706).

Best regards

Azrita

Dear Azrita

Thank you for submitting your response. Are going to be submitting a new version soon or were you intending to respond to your reviewers first?

As a reminder, reviewers can only update their report when a new version of the article is published and responding to a report via a comment is not the same as revising your article. When revising their article, authors are strongly recommended to respond to each individual report explaining how they addressed their feedback in the new version of their article. These comments are then published at the same time as a new version and are intended to help supplement the summary update text. We recommend submitting a new version after you have received at least 2 reports, but it is entirely up to you.

If instead you wish to respond to the report before submitting a new version, please let me know so we can process your comment correctly.

If you have any queries, please do not hesitate to get in touch.

Best regards

Kate

Dear  
Katte Mcrobbie  
Senior Editorial Assistant

I agree to wait for another Reviewer Report. After that, revisions were made to the second version.

With best regards

Azrita
