CHAPTER V

CONCLUSION AND SUGGESTION

This chapter provides the conclusion and suggestion of the study as follows:

5.1 Conlusion

This study examines how the characters in the Sherlock Holmes film flout maxims. Two study objectives were suggested by the researcher, which are first to find out what types of maxim which are flouted by the characters in the movie, and the second is to know the reasons why the characters used the flouting maxim frequently. To aid himself in carrying out the analysis, the researcher generalized the background of this work. In this study, The researcher also possesses a few comparable studies and theories from specialist books. The theory itself by Joan Cutting and the reference book that served as the basis for this research guide.

The researcher employs Cutting's theory to assist him in studying the entire dataset. The writer took certain steps to acquire data. The files are Sherlock Holmes' English subtitle scripts that were downloaded from the internet. To make sure there are no conversations missed, The researcher used a movie script to crosscheck whether it is the same conversation on the script or not. After that, the writer selects all the flouting maxims and categorizes them based on the sort of maxim. The researcher have found 4 flouting maxim have been flouted, they are flouting maxim of quantity, quality, relation and manner. The flouting maxim of relation are frequently used by the characters. The floutinng maxims is frequently not cooperative by saying irrelevant things to the topic of the conversation.

5.2 Suggestion

After finishing the research, the Researcher have any suggestions for the students who want to analyze flouting maxim, which are presented below.

1. For the English Department Students

Students of English Department especially are majoring in linguistics, It is encouraged to understand more about flouting maxim, since it is a typical phenomenon in the language that is normally spoken, especially in daily life. It is additionally advised to individuals who want to research the flouting maxim with various study objectives because it has several features other than flouting that can be examined further.

2. For the Readers in General

It is also advised for the readers in general to be become more conscious of common situations like flouting maxims because they are commonplace and frequently occur in everyday discussions.

3. The researcher recognizes this thesis is far from perfect. As a result, criticism and suggestions on this study would be preferable.
