## 5.1 Conclusions

After analyzing the second year students' speaking ability through short conversation at MAN 2 Tanah Datar , the researcher has found some result as follows:

1. The students' speaking ability through short conversation at MAN 2 Tanah Datar is categorized into high ability.

2. The students' ability throught short conversation in terms of content at MAN 2 Tanah Datar is categorized into low ability.

3. The students'ability through shhort conversation in terms of vocabulary at MAN 2 Tanah Datar is categorized into high ability.

4. The students'ability through short conversation in terms of grammar at MAN 2 Tanah Datar is categorized into high ability.

5. The students' ability through short conversation in terms of pronunciation at MAN 2 Tanah Datar is categorized low ability.

6. The students' speaking ability through short conversation in terms of fluency at MAN 2 Tanah Datar is categorized high ability.

## 5.2 Suggestions

Based on the conclusions above, the researcher gives several suggestions as follows :

1. For the teacher, they are suggested to work harder in teaching students, especially in content and pronunciation, it is supported by the fact that there are 28 (82,35%) students that had low ability in terms of content and 20 students (58,82%) had low ability in terms of pronunciation.

2. For the students, they are suggested to practice more and also build their self-confidence, enthusiastic in expressing something to be improved. Then students are also suggested to always train themselves in the use of language specifically content, because it was found that their ability in content and pronunciation was low.

3. The researcher suggests the next researcher to investigate students' difficulties in short conversation.
