CHAPTER V

CONCLUSIONS AND SUGGESTIONS

Based on the findings of this research as already discussed previously, the researcher draws some conclusions and suggestions.

5.1 Conclusions

From the findings and discussions, it can be concluded that the ability of the tenth-grade students at SMKN 6 Padang in writing recount text based on picture series, as follows:

a. The tenth grade students' ability at SMKN 6 Padang had a low ability in writing recount text based on picture series. It was proved by the fact that 85,71% students had low ability.

b. The tenth grade students had low ability to express their content ideas in writing recount text based on picture series. It was proved by the fact that 80,95% students had low ability.

c. The tenth grade students had low ability to organize the generic structures in writing recount text based on picture series. It was proved by the fact that 76,19% students had low ability.

d. The tenth grade students had low ability to use appropriate vocabulary in writing recount text based on picture series. It was supported by the fact that 57,14% students had low ability.

UNIVERSITAS BUNG HATTA

e. The tenth grade students had high ability to use correct grammar in writing recount text based on picture series. It was proved by the fact that 52,39% students had high ability.

f. The tenth grade students had low ability to use mechanics in writing recount text based on picture series. It was supported by the fact that 92,86% students had low ability.

5.2 Suggestions

In this chapter, the researcher would like to propose some suggestions that hopefully would be useful for the English teachers, the students, and future researcher as follows:

1. For Teachers

Related to the finding, the researcher found that the tenth grade students at SMKN 6 Padang had low ability in writing recount text. Because of that, the English teachers should be more active in encouraging students to practice their writing skill. The teachers should give them more writing exercise. The teacher hopes that the students can improve the ability in writing recount text.

2. For Students

Related to the conclusion, the researcher found that the tenth grade students at SMKN 6 Padang had low ability in writing recount text. Because of that, the students must practice writing recount text regularly and focus on paying attention when the teachers explain the materials about recount text.

UNIVERSITAS BUNG HATTA

3. For Future Researchers

    The researcher hopes that future researchers can do research on other promblems in writing such as what difficulties faced by students in developing content, organizing generic structures, using appropriate vocabulary and using mechanics.
