***Abstract.***

*This study aims to determine the effect of current ratio, net profit margin, return on assets and earnings per share on stock prices in plastic and packaging industry sub-sector companies listed on the Indonesia Stock Exchange for the 2015-2018 period. This study uses secondary data about the financial statements of companies listed on the Indonesia Stock Exchange. The sample of this study used 12 companies in the plastic and packaging industry sub-sector which are listed on the Indonesia Stock Exchange. The method used in this research is multiple linear regression analysis with the help of the program eviews. Based on the results of hypothesis testing, it was found that the current ratio, net profit margin, return on assets and earnings per share had no effect on stock prices in the plastic and packaging industry sub-sector listed on the Indonesia Stock Exchange in 2015-2018.*
