ABSTRACT

The aim of this study is to examine the effect of firm risk, cost structure and dividend policy on firm value. Firm value that is measured using Price Book Value (PBV). Population in this research are manufacturing companies listed in Indonesia Stock Exchange (IDX) from 2013-2017. The Samples were selected by purposive sampling method and finally obtained 37 manufacturing companies. Data used in this research is secondary data from the website of Indonesia Stock Exchange www.idx.co.id.

The results of the study using multiple linear regression test showed that the company's risk and cost structure had a significant negative effect on firm value, while dividend policy did not have a significant effect on firm value.

Keyword :firm risk, cost structure, dividend policy, firm value
