ABSTRACT

This study aims to determine the effect of audit delay, audit tenure, audit opinion and company growth on auditor switching. The type of data used in this study is secondary data on manufacturing companies listed on the Indonesia Stock Exchange from 2014 to 2018 with a total of 255 companies. The sample was obtained by purposive sampling method with the final number of 51 companies for five consecutive years. The data analysis technique used is logistic regression analysis. The results of this study indicate that audit delay, audit opinion, company growth do not have a significant effect on auditor switching, while audit tenure has a negative and significant effect on auditor switching.

Keywords: Auditor Switching, Audit Delay, Audit Tenure, Audit Opinion, Company Growth
