

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

Based on the findings and discussions of this research as already discussed before, the researcher gives some conclusions and suggestions.

1.1 Conclusions

Related to the findings and discussions, the researcher concludes that:

- 1) The ability of the second year students of English Department at Bung Hatta University in writing sentences using comparative adverbs was moderate because 15 students (41.67%) had moderate ability.
- 2) The ability of the second year students of English Department at Bung Hatta University in writing sentences using comparative adverbs with one syllable was good because 14 students (38.89%) had good ability.
- 3) The ability of the second year students of English Department at Bung Hatta University in writing sentences using comparative adverbs with two or more syllables was low because 17 students (47.22 %) had low ability.
- 4) The ability of the second year students of English Department at Bung Hatta University in writing sentences using comparative adverbs with irregular adverbs was good because 19 students (52.78 %) had good ability.

1.2 Suggestions

Based on the conclusions above, the researcher gives some suggestions to the lecturers, students, and the future researchers as follows:

- 1) The researcher suggests the lecturers to give motivation to the students to be more active in the class and give more exercises to students in writing sentences using comparative adverbs.
- 2) The researcher suggests the students to learn more about comparative form of adverb in simple sentences and pay attention to the aspects in writing skill.
- 3) The researcher suggests the next researcher to do a research on the students' difficulties in writing simple sentences using comparative adverbs.

Nomor :216/Pend-03/VIII/2021

19 Agustus 2021

Lamp. :-

Hal : **Permohonan Izin Penelitian**

Yth. Sdr. Dekan Fakultas Keguruan dan Ilmu Pendidikan Universitas Bung Hatta
Kampus II Universitas Bung Hatta Jl. Maransi Air Pacah Koto Tangah Kota Padang

Dengan hormat,

Bersama surat ini disampaikan kepada Saudara bahwa mahasiswa Fakultas Keguruan dan Ilmu Pendidikan Universitas Bung Hatta berikut ini :

Nama	:	Maretha Azkiya
NPM	:	1610013121002
Jurusan	:	Pendidikan Bahasa Inggris
Program Studi	:	Pendidikan Bahasa Inggris
Judul Penelitian	:	An Analysis of the Second Year Students' Ability in Writing Simple Sentences Using Comparative Adverbs at English Department of Bung Hatta University

Memerlukan penelitian di Prodi Bahasa Inggris Universitas Bung Hatta, untuk pengumpulan data dalam rangka penulisan skripsi. Lama penelitian/pengumpulan data tersebut dilakukan selama 1 Minggu. Oleh karena itu, kami mohon kepada Saudara untuk memberikan izin kepada mahasiswa tersebut di atas.

Demikianlah surat ini disampaikan kepada Saudara. Atas perhatian dan kerja sama Saudara kami ucapan terima kasih.

Wassalam dan hormat
Wakil Dekan,

Dr. Syukma Netti, M.Si

Tembusan :

Yth. Ketua Prodi PING Universitas Bung Hatta

Appendix 2

Writing Test

Time : 50 Minutes

Name : _____

NPM : _____

Direction: Please write simple sentences using **comparative adverb** based on the adverb given below.

Example: a. close

Answer : I live **closer** to the campus than before.

b. carefully

Answer: He drives more carefully than a racing driver does.

c. little

Answer: Rudy talks **less** than Anne.

1. fast

Answer:

2. rapidly

Answer:

3. late

Answer:

4. high

Answer:

5. frequently

Answer:

6. regularly

Answer:

7. hard

Answer:

8. low

Answer:

9. suddenly

Answer:

10. badly

Answer:

11. recently

Answer:

12. happily

Answer:

13. far

Answer:

14. long

Answer:

15. early

Answer:

16. well

Answer:

Appendix 3

The Students' Scores in Writing Simple Sentences Using Comparative Adverbs

Student Number	One Syllable			Two or More Syllables			Irregular Adverb		
	SI	SII	AS	SI	SII	AS	SI	SII	AS
1	15.46	13.46	14.46	13.63	13.63	13.63	9.64	10.64	10.14

25	44.16	47.16	1950.11	2224.07	2082.59
26	39.91	41.57	1592.81	1728.06	1659.06
27	49.25	53.56	2425.56	2868.67	2637.83
28	45.30	41.64	2052.09	1733.89	1886.29
29	43.25	45.76	1870.56	2093.98	1979.12
30	39.61	38.12	1568.95	1453.13	1509.93
31	28.11	34.62	790.17	1198.54	973.17
32	43.30	40.45	1874.89	1636.20	1751.49
33	51.56	52.56	2658.43	2762.55	2709.99
34	21.52	23.78	463.11	565.49	511.75
35	36.58	34.10	1338.10	1162.81	1247.38
36	39.80	36.64	1584.04	1342.49	1458.27
Σ	1358.31	1369.91	53496.43	54432.94	53795.71

To find out the coefficient correlation of the two sets of scorers, the researcher used Pearson Product Moment formula:

$$r_{xy} = \frac{n \sum xy - (\sum x)(\sum y)}{\sqrt{\{n \sum x^2 - (\sum x)^2\}\{n \sum y^2 - (\sum y)^2\}}}$$

$$r_{xy} = \frac{36 X (53795.71) - (1358.31 X 1369.91)}{\sqrt{\{36 X 53496.43 - (1358.31)^2\}\{36 X 54432.94 - (1369.91)^2\}}}$$

$$r_{xy} = \frac{75883.11}{81892.41}$$

$$r_{xy} = .93$$

From the calculation above, the researcher found that the coefficient correlation of the two sets of the scores was .93. It means that the coefficient correlation of the test was very high, and it can be concluded that the test was reliable.

- To get students' converted scores the researcher used the formula below:

Students converted score = Average Score

$$\rule{1cm}{0.4pt} \times 100$$

Maximum Score

- The percentage of students who got very good ability, good ability, moderate ability and low ability in writing simple sentences using comparative adverbs:

$$P_{\text{very good}} = \frac{3}{36} \times 100 = 8.33 \%$$

$$P_{\text{good}} = \frac{6}{36} \times 100 = 16.67 \%$$

$$P_{\text{moderate}} = \frac{15}{36} \times 100 = 41.67 \%$$

$$P_{\text{low}} = \frac{12}{36} \times 100 = 33.33 \%$$
