

## **CHAPTER V**

### **CONCLUSIONS AND SUGGESTIONS**

In this chapter, the researcher presents the conclusions and suggestions. The conclusions and suggestions are drawn based on the result of data analysis.

#### **5.1 Conclusions**

Based on the results of the data analysis, the researcher concluded that:

1. The first year students' speaking ability after learning using google meet at the English Department is excellent because the majority of students (100%) are classified as having excellent ability.
2. The first year students' speaking ability in expressing idea (content) is excellent because the majority of students (93,33%) are classified as having excellent ability.
3. The first year students' speaking ability in applying good pronunciation is excellent because the majority of students (100%) are classified as having excellent ability.
4. The first year students' speaking ability in applying appropriate vocabulary is excellent because the majority of students (100%) are classified as having excellent ability.
5. The first year students' speaking ability in applying correct grammar is good because the majority of students (46,67%) are classified as having good ability.
6. The first year students' speaking ability in applying good fluency is good because the majority of students (90%) are classified as having good ability.

#### **5.2 Suggestions**

Based on the conclusions above, the researcher gives some suggestions as follows:

1. The researcher suggest the lecturers to motivate students to keep students' ability excellent by asking students practice speaking everyday.

2. For the students, the researcher suggest the students to keep their ability excellent in speaking skill. They should improve their ability in the aspect of speaking such as grammar and fluency because their ability is still good.
3. For the next researcher, the researcher suggest to find out the causes of the students' speaking ability in grammar and fluency is good (not excellent).
