

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

In this chapter, the researcher provides several conclusions and suggestions. The conclusions were based on the findings of this study, and suggestions were derived from the conclusions.

5.1 Conclusions

Based on the findings of this study as already discussed in the previous chapter, the researcher points out the following conclusions:

1. The correlation between the second-year students' habit to watch English YouTube channel and their speaking skill at the English department of Bung Hatta University was a positive correlation.
2. The correlation between the second-year students' habit to watch English YouTube channel and their speaking skill at the English department of Bung Hatta University was significant.
3. The alternative hypothesis "there is a significant correlation between the second year students' habit to watch English YouTube channel and their speaking skill at the English department of Bung Hatta University", was accepted.

5.2 Suggestions

Since the finding of this research showed that there was a significant correlation between students' habit to watch English YouTube channel and their speaking skill, some suggestions were presented as follows:

1. The students are suggested to improve their good habit to watch English YouTube channel and more exercise to improve speaking skills especially speaking for description.
2. The English lecturers are suggested to guide their students to develop their speaking skill by motivating them to watch English YouTube channel.
3. The researcher suggests to the further researchers to do other related research dealing with other aspects and factors that influence speaking skills.
