

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

In this chapter, the researcher provides several conclusions and suggestions. The conclusions are based on the findings and discussions about the results of this study and the suggestions are based on the conclusions of this study.

5.1 Conclusions

Based on findings of the research result in the previous chapter, it can be concluded that:

1). Students had positive perception toward English E-learning during Covid-19 at SMK N 4 Padang. It was indicated by the fact that 65% students had positive perceptions. It means that the students like to had English E-learning.

2). Students had positive perception toward learning material of English E-learning during Covid-19 at SMK N 4 Padang. It was indicated by the fact that 68% students had positive perception. It means that the students interested to had learning material of English E-learning.

3). Students had positive perception toward learning media of English E-learning during Covid-19 at SMK N 4 Padang. It was indicated by the fact that also 55% students had positive perception. It means that the students like to had learning media of English E-learning.

4). Students had positive perception toward learning activities of English E-learning during Covid-19 at SMK N 4 Padang. It was indicated by the fact that 58% students had positive perception. It means that students interested to had learning activities of English E-learning.

5.2 Suggestions

Based on the conclusions of this research about the students' perception toward English E-learning, the researcher tries to give some suggestions:

1. For Teachers

Teachers are suggested to use E-learning as learning variations because the students have positive perception.

2. For Students

Students are suggested to do self E-learning have positive perception.

It means they are interested E-learning.

3. For Further Researcher

Further researchers are suggested to refer this research result as reference for future research.
